

An Informative Half-day Workshop:

Kitchen Safety

1 Who Should Attend . . .

This workshop is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOsha).

2 Why You Need This Seminar . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high costs of work-related injuries. Nationally, employers spent an estimated 50.8 billion on wage payments and medical care for workers hurt on the job (*Liberty Mutual Safety Index 2005*). This is only a portion of the total costs of work-related injuries. Indirect costs such as overtime, training, and lost productivity can also burden employers.
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces workers' compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

This workshop is designed to assist employers and employees that are exposed to hazards found in restaurants and kitchens in health care or educational facilities. By attending this workshop you will gain insight into the regulations that impact you. You will also receive valuable information to make your workplace a safer and healthier environment.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ MIOsha Required Written Programs:
